

SUGAR LIPS

I'm saying enough is enough
You knew you had it coming to you
Too late to stitch up the wound
You blew it mister

**Every time I try to
Kiss you goodbye
There's a seed of doubt
Playing on my mind
I still want more
But you can't be sure
So I kiss you goodbye**

People change, so do their lives
Regrets, never let them hurt you
All this time I helped you through
But what about me?

And I see tears in those wicked eyes
Can't speak, my mouths too dry
Trash those plans I made with you
Do you want me to?

Every time I try to
Kiss you goodbye
There's a seed of doubt
Playing on my mind
I still want more
But you can't be sure
So I kiss you goodbye

Every time I try to
Kiss you goodbye
I'm reaching out
I'm crying out loud
I still want more
But you can't be sure
So I kiss you goodbye

KISS YOU GOODBYE

[Campbell / Danielson / Kingwell / Romich]

Oh oh-oh ooh, another day
Not a sign, no word from you
Oh oh-oh ooh
One more lie, another tear
Said you'd change but nothing did
Oh you should know,
I believed you, I believed you

I could be your lover
I could be your fool
I could be your Valentine girl
Make a promise to you

**Look inside your heart
And you will see
There's a little piece, a little piece
A little piece of me
There's a little piece, a little piece
A little piece of me**

You give yourself
To whomever you meet
And they all, they all, take a piece
All take no giving

I could be your lover
I could be your fool
You could be my tag along man
Make a promise that's true

Look inside your heart
And you will see
There's a little piece, a little piece
A little piece of me
There's a little piece, a little piece
A little piece of me

LITTLE PIECE OF ME

[Danielson / Kingwell / Romich]

Looking out of the window
To the air and sky
I'm constantly changing
And foolishly shy
He was looking for answers
But I could never reply
Now it's hopelessly over

**But I could be dreaming
Or outta my head
I would do anything
To be in your bed**

Couldn't keep us together
Couldn't keep us apart
A pair of hopeless romantics
Breaking each other's heart
I was looking for answers
But he could never reply
Now it's hopelessly over

Well I could be dreaming
Or outta my head
I could do anything
Lying in your bed
To be in your bed

Oh how could our
Hands be so tied
When all of our
Dreams they did fly

Man I could be dreaming
Or I could be dead
I would do anything, anything
To be in your bed

Yeah I could be dreaming
Or outta my head
I would do anything, anything
To be in your bed, in your bed
To be in your bed, to be with you

IN YOUR BED

[Campbell / Danielson / Kingwell / Romich]

Watching every day go by
Funny how the numbers
On the calendar fly
Thinking in circles
I repeat your name
Saw you this morning
But I miss you just the same

Feeling like a zombie I glide
Terminate my senses
Til you're back by my side
Thinking in circles
I repeat your name
Saw you this morning
But I miss you just the same

And I said 'Baby!'
I've fallen for you
Head over heels
And 'Baby!'
I want you more than I ever did

**We're playing everybody's game
And we're wishing
We could start it all over again
And I said 'Baby!'
Where to from here?**

Ooh, baby don't cry
Ooh, baby don't cry

We're playing everybody's game
And we're wishing
We could start it all over again
And I said 'Baby!'
Where to from here?

Baby... where to from here?

WHERE TO FROM HERE

(Danielson / Kingwell / Romich)

I'm stuck on photographs
That I can't put away
I'm smoking cigarettes
To get me through the day

I made a big mistake
But now I pay
Cause I miss your love

I'm staring at the walls
With nothing left to say
My brain's in overdrive
With stuff I can't erase

**I made a big mistake and now I pay
Cause I miss your love
I miss your love**

I made a big mistake and now I pay
Cause I miss your love
I miss your love

Cause I miss your love

Don't think I've changed my mind
Cause you deserved it at the time
Still I've come to find
That I miss your love

Can't look at other men
Or fake a one night stand
I'm sleeping with a ghost
That follows me around

I made a big mistake and now I pay
Cause I miss your love
I made a big mistake but it's too late
Cause I miss your love

MISS YOUR LOVE

(Danielson / Kingwell / Romich)

My friends say
You're like dynamite
My friends say
You've a nasty bite

You're a vampire
You're a freak
You're a devil
You're a creep

My friends say
You're a down and out
My friends say
That you scream and shout

You're a madman, you're insane
You're a user, you're a pain

**But I ain't listening,
I can't help wishing
That I was kissing you**

My friends say, what's it all about
My friends say, you turn me inside out

You're a nightmare, you're a fake
You're a user, you're a snake

But I ain't listening,
I can't help wishing
That I was kissing you

No I ain't listening,
I can't help wishing
That was kissing you

When you stare at me
It's like you see into my soul
Something deep inside me
Makes me start to lose control

Yeah. All I wanna do is be kissing you

KISSING YOU

(Kristy / Gurvitz)

You read your horoscope
To tell you what to do
And it's so obvious
You never thought it through

Check out reality
I think you need some help

**Time out. Game over.
You did it to yourself
And I can try to change your mind
Oh oh, give in to me
Oh oh, give in to me**

You've taken bad advice
From straight and narrow minds
You've lost you confidence
In what you knew was right

Check out reality
I think you need some help

Time out. Game over.
You did it to yourself
And I can try to change your mind
Oh oh, give in to me
Oh oh, give in to me

GIVE IN TO ME

[Danielson / Kingwell / Romich]

There's a million ways
To chase your holy grail
And there's about
A thousand rules you'll break

I can guarantee
That there will always be
Someone who's telling you
That what they say is true

**Everybody knows you
Yeah they know you
But they still don't understand
Why they can't control you
Cause you know your strength
Everybody knows you
Yeah they know you**

A harder line is kinder in the end
Can't please everyone
Or make yourself pretend
I can guarantee
That there will always be
Someone who's telling you
That what they say is true

Everybody knows you
Yeah they know you
But they still don't understand
Why they can't control you
Cause you don't need them
Everybody knows you
Yeah they know you
But they still don't understand

When they breed opinions in your ear
Do you believe, do you believe?
That what they say is true
Do you believe, do you believe?

EVERYBODY KNOWS YOU

[Danielson / Kingwell / Romich]

**Make me smile
Make me smile
Make me smile
Make me smile**

Drunk and drowning
Dressed to freeze
You were there with me
Kissing on your knees
Looking up at me

Hungry eyes with pixie gleam
Busy mouth can't speak
Virgin porn star queen
Not what I seem

It's true, I cannot believe
The things you make me do

Make me smile
Make me smile
Make me smile
Make me smile

Drunk and drowning
Dressed to freeze
You were there with me
Kissing on your knees
Trying hard to please

Take me home and scrub me clean
Movie screen, pick your own wet dream
Starring me

It's true, I cannot believe
The things you make me do

Make me smile
Now that I met you I cannot forget you
Make me smile
Now that I met you how could I forget you

SMILE

[Danielson / Kingwell / Romich]

I'm a girl, skin and bone
I live in a house but it's not a home
And everybody knows

My head is full of junk
I wrote this song when I was drunk
And every body knows
Everybody knows

**I'm no angel,
I'm no angel
No angel, but I...
I could be if I tried**

Pay my way, don't ask how
It's under my control for now
And everybody knows

Got a smile upon my face
And under that it's personal space
And everybody knows
Everybody knows

I'm no angel,
I'm no angel
No angel, but I...
I could be if I tried

You got nothing on me
You got nothing on me

I'm a girl, skin and bone
I live in a house but it's not a home
And everybody knows
Everybody knows

I'm no angel,
I'm no angel
No angel, but I...
I could be if I tried

NO ANGEL

[Campbell / Danielson / Kingwell / Romich]

You say you wanna find yourself
Well baby start looking
You say you're really sorry
After all this time
To leave me behind

So traipse around the universe
With your inner self
And when you realise
There's nothing there

**You'll come crawling
Back to me
You'll come crawling
With blood on your knees
But don't expect sympathy
You've lost that opportunity
You'll come crawling
You'll come crawling**

Please excuse me if you find
My lack of tears a little disappointing
But I guess it's just too hard
For me to be the sensitive kind

So find yourself a guru
To open your third eye
Then you can clearly
See the moment when...

You come crawling
Back to me.
You'll come crawling
With blood on your knees
But don't expect sympathy
You've lost that opportunity
You'll come crawling
You'll come crawling.

Don't sugar coat your reasons
It makes you sound weak
But I guess you are

YOU'LL COME CRAWLING
